Notify: WORLDWIDE LOGISTICS 11 5249 5452 / 5250 4757
 hobbit@hobbit.com.ar

PRE-ADVISE

Please email advance copies of the Airway Bill/Bill of Lading, Commercial Invoice and Pre-Alert to Hobbit, Attn: Edmundo Tombeur, email address etombeur@hobbit.com.ar.

Please note that using a consolidator may delay customs clearance and delivery. Any deconsolidation charges will be passed on to you at cost plus 5%.

PACKING

In order to minimize damage to the goods you will be shipping, please ensure if at all possible that your shipment is skidded before it leaves your facility. It must be packed in separate boxes and individually labeled. Contact your TWI representative for further details.

Due to multiple handling of freight cases TWI urges exhibitors to use strong wooden cases. Bolted returnable types of cases that offer protection from the elements are ideal. If your cases are secured with a lock or combination please provide the key or combination at time of tender for Customs access if necessary.

COMMERCIAL INVOICE/PACKING LIST

Please prepare the invoice/packing list with the following details:

- Commercial invoices and packing lists can be combined on one document if they list quantity, description, value of each item, weight and dimensions of each package.
- Your company's Federal Employer Identification Number and any applicable license numbers.
- Complete, precise, simple and non-technical description of all items should be listed on the invoice with HTS codes.

A Proforma Invoice completed on Hobbit's template is required for all shipments.

Due to local Customs regulations, temporary and permanent shipment must be separated.

SHIPMENTS CONTAINING BATTERIES

Please contact your TWI Representative as soon as possible if you are shipping batteries, or your equipment contains batteries of any kind (including laptops/tablets), so that we may inform you whether IATA packaging and labeling requirements pertain to your shipment.

We have provided labels if they are needed. These labels must have the telephone number of a person knowledgeable about the shipment. It is not required to be monitored at all times that the package is in transit. It is acceptable for the number to be monitored during the company's normal business hours in order to provide product-specific information relative to the shipment. This cannot be a toll-free number.

[IATA Lithium ION Battery Label](#)

[IATA Lithium METAL Battery Label](#)

A material safety data sheet (MSDS) is required for all battery shipments.

Failing to inform us ahead of time regarding any batteries that are contained in your shipment may result in delays or refusal by the airlines to accept the shipment.

SHIPMENTS WITH NON-MANUFACTURED WOOD PACKING

All shipments containing Non-Manufactured Wood Packing (NMWP) must be either **heat-treated or fumigated**. NMWP and Solid Wood Packing Material (SWPM) must bear markings indicating the type of treatment under the ISPM 15 regulations.

Any packing that does not comply with these requirements will be refused, destroyed, or returned to its origin, resulting in a considerable delay.

Please contact your TWI representative if you have any questions regarding the NMWP rule.
